Subject: Animas River, food crops

Hi, Rebecca

As I explained in my voice message, I am looking for information about the Animas River contamination and how it might relate to any crops in Colorado and northern New Mexico. My deadline is tomorrow morning, and I'm hoping you can give me a quick reply. I don't believe any food crops have been impacted, and what grows in that region is largely hay/feed corn. If you can confirm that, it would be immensely helpful.

Thanks in advance.

Kathleen
